

Library of PRC, Srinagar

The Centre has a well established library racked around 1130 books of varied disciplines such as demography, population studies, health and other subjects like social work and health economics. In addition to the books, the library has a good number of Journals, different health reports, reports of National family Health Surveys, Census reports and digest of statistics and economics of Jammu & Kashmir. The Centre annually spends around forty thousand rupees on purchasing of books of varied subjects to add the existing literature. This way the library of the Centre is the main source of information for various disciplines of scholars and majority of the scholars' visits the library.
